

Objective: This exercise will demonstrate another method for exporting crosstab data to Excel

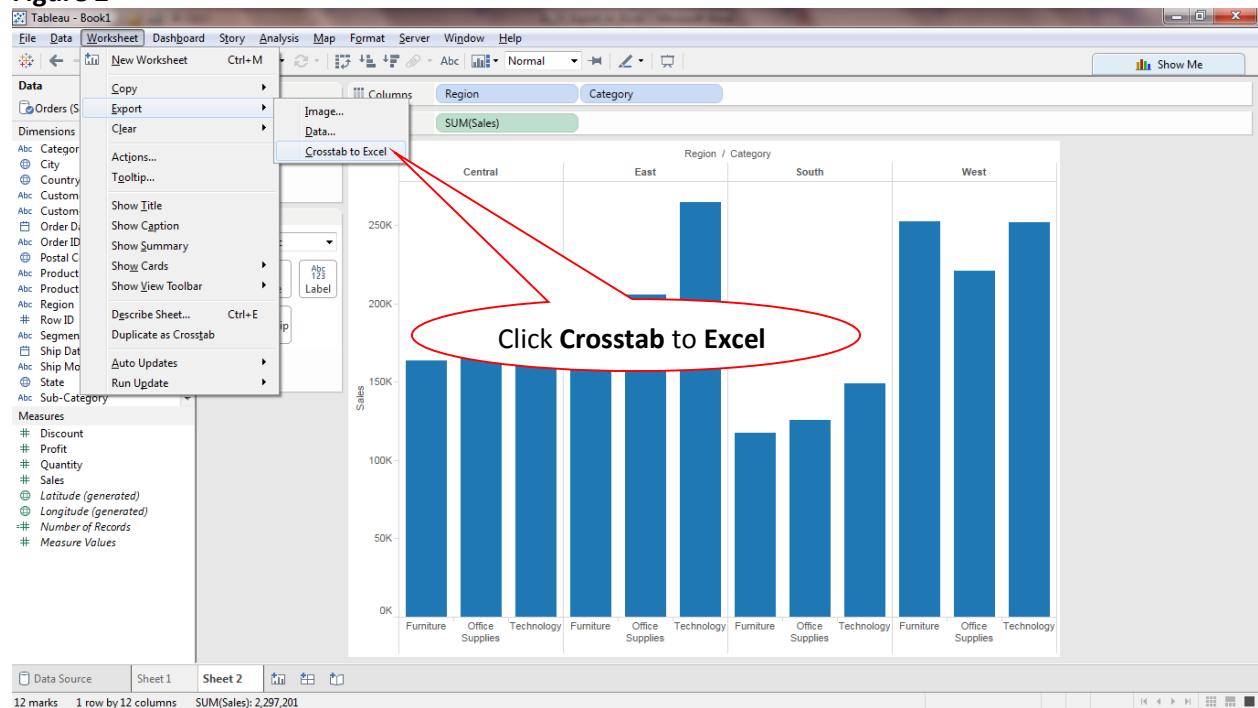

Figure 1 shows a chart whose data needs to be exported to Excel.

Figure 1

- Click **Worksheet** on the **Menu Bar** as shown in Figure 1, which will popup the menu tree displayed on Figure 2

Figure 2

- Navigate to the secondary menu tree displayed on Figure 2
- Click **Crosstab to Excel** as shown on Figure 2, which will launch the Excel application and populate it with the relevant data as displayed on Figure 3

Figure 3
