

Objective: This exercise will demonstrate how to copy and export a displayed image

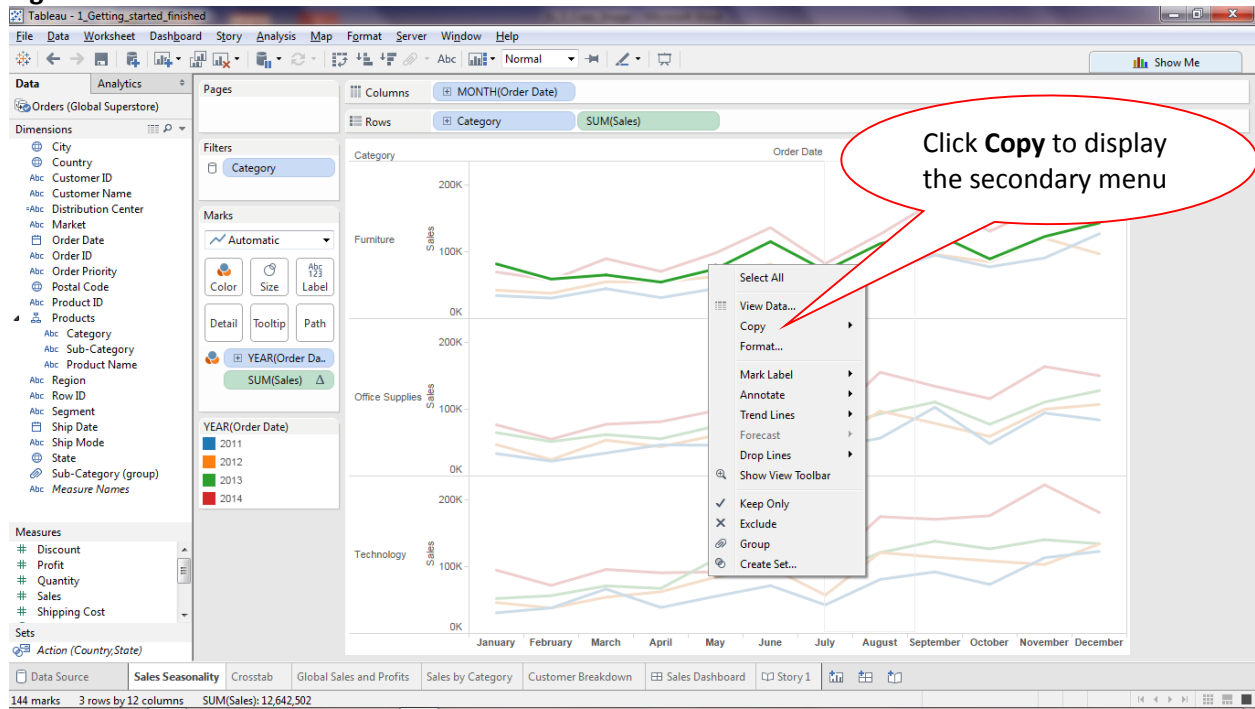

Figure 1 shows the visualization which needs to be exported as an image.

Figure 1

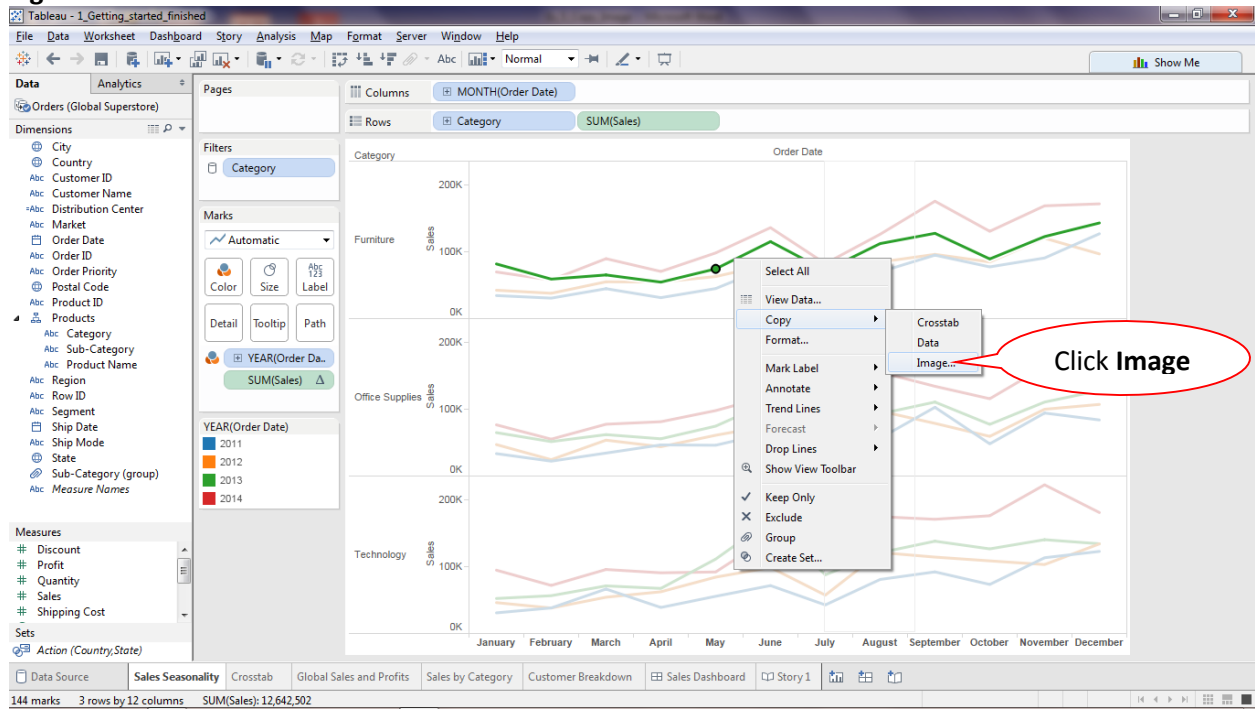

- Right-click within the chart as shown on Figure 1, which will pop-up the menu tree displayed on Figure 2

Figure 2

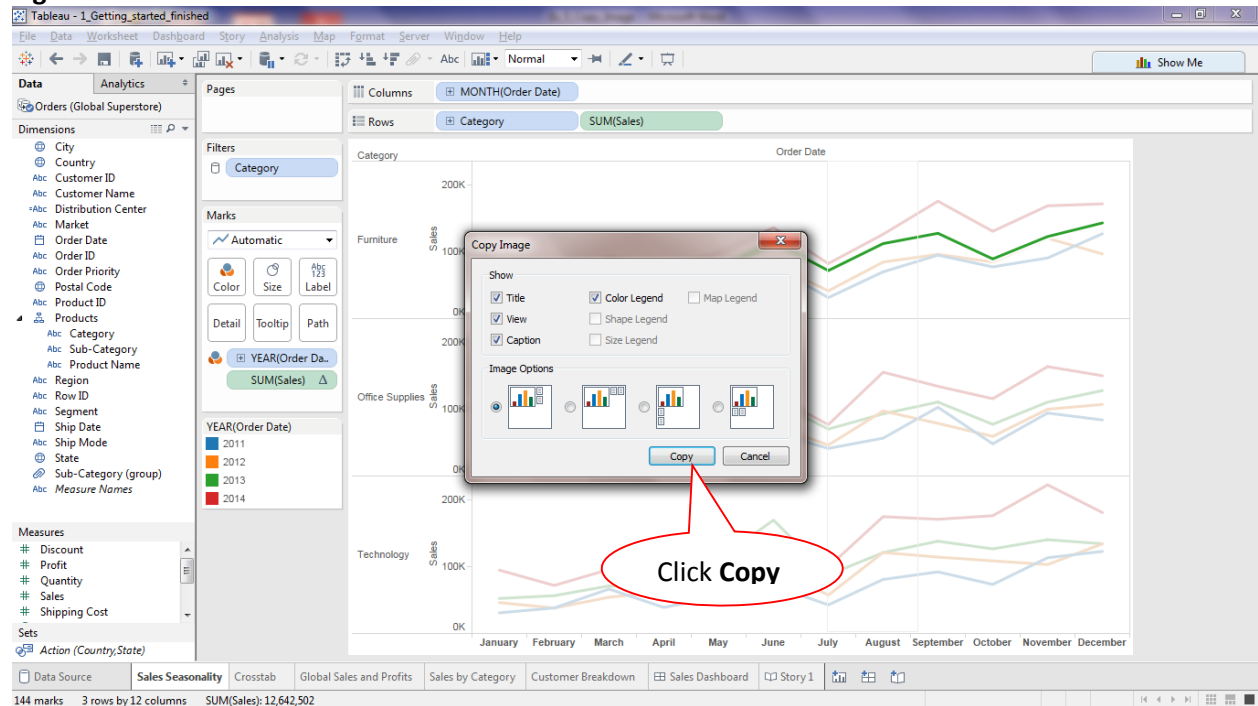

- Click **Copy** as shown on Figure 2, which will lead to the secondary menu tree displayed on Figure 3

Figure 3

- Click **Image** as shown on Figure 3, which will popup the **Copy Image** window displayed on Figure 4

Figure 4

- Click **Copy** as shown on Figure 4, which will capture the displayed image

The displayed image can now be exported to another application. To export the image into PowerPoint:

- Launch PowerPoint
- Paste onto the displayed blank PowerPoint slide, which will lead to the Figure 5 display where the image is displayed
